Rail Anniversaries

Both a railway and a tram line celebrate their 100th anniversary.

Dear customer!

On 20 September we issued two stamps with rail anniversaries as their theme. One marks the Rauma Line's 100th anniversary. This railroad, which connects Northwestern Norway with the Dovre Line, is one of the most beautiful in the world. The second stamp in the series marks the Gråkallen Line's 100th anniversary. The Gråkallen Line in Trondheim is the world's northernmost tram line and carries around one million passengers annually. Both stamps were designed by Børge Bredenebakk, a new and exciting acquaintance as a stamp artist.

On 20 September, the anniversary trip on the Rauma Line went from Dombås to Åndalsnes, with stops also at Bjorli and Verma. Norway Post was involved and had its own cancellations at each stop. Read more on page 8.

On 5 October, the last two stamps in the Research, innovation, technology series will be issued. The themes this time are the Legacy of Nansen - symbolized by the research ship "Kronprins Haakon" and ocean currents and climate symbolized by the Bjerknes Centre for Climate Research. The stamps also this year have a QR code that leads to the Norwegian Research Council's website where you can read the history of the themes on the stamps. As in previous years, Enzo Finger is the creator of the stamps.

One of the world's most beautiful

The Rauma Line is one of the world's most beautiful train journeys, and this year it turns 100 years old. On 20 September, the anniversary trip went from Dombås to Åndalsnes with Norway Post on board.

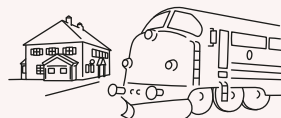

We offer a set of covers with cancellations for each stop on the trip. A separate folder with text about the route (in Norwegian only) and an envelope from the anniversary tour is also offered.

Set of 5 covers: NOK 200
Folder Rauma Line Centenary: NOK 50
